

ImmPort Administration 'My Projects'

Introduction

My Projects provides project title, description, and the ImmPort users who may access to a project. Principal Investigators and Project Managers may edit this information.

Private projects and collaborative projects may be created by Principal Investigators.

Private projects may be created by Project Managers.

You may also link to the Data Management module to browse and search for data loaded into ImmPort.

If you have any questions or comments, please contact helpdesk at helpdesk@import.org.

ImmPort Administration 'My Projects'

Select a project and click 'View Project Details' to view details about the project or click 'Manage Project Data' to manage the experiment data in the project

Select a project and click "View Project Details" to view details about the project, or click "Manage Project Data" to manage the experiment data in the project.

	Project Title	Project Description
<input type="radio"/>	August 19 Regression test	August 19 Regression test
